ZONE UPDATES

Annual regional meetings took place since the zone update in the fall Pulse Crop News, and there was turnover in the advisory committees of most zones. The advisor lists below include new advisors elected after those meetings, as well as updates to the chair and vice-chair positions. Zone chair updates will continue in the summer Pulse Crop News. If there is any information that you think would be valuable to producers as part of these reports, please email rpeterson@albertapulse.com.
