

Alberta Agrisystems Living Lab (AALL)

Dinner & Information Sessions

WE ARE LOOKING FOR BEEF, FORAGE, AND CROPPING PRODUCERS

INTERESTED IN PARTNERING WITH RESEARCHERS TO IMPLEMENT OR ADAPT CERTAIN MANAGEMENT PRACTICES ON THEIR OPERATIONS AND MEASURE THE PRODUCTIVITY, PROFITABILITY, AND SUSTAINABILITY IMPACTS.

AALL participants will receive:

- Personalized cost of production reports,
- Technical information such as soil mapping, forage yields, crop rotation recommendations,
- Compensation annually for providing their time and expertise for surveys, workshops, and interviews.

This is a unique opportunity for producers to be "hands-on" at every step of the process - from design through to implementation.

Where Research Meets Reality.
www.agrisystemsll.ca

The AALL led by Alberta Beef Producers is focused on measuring the impacts of beneficial management practices (BMPs) in the real world. The results from this project will be used to help direct government policy makers and help to demonstrate the value of the work producers do every day.

October 11, 2022
