

QUALIFIED ALBERTA PULSE GROWERS ELIGIBLE FOR 11.9% TAX CREDIT FOR INVESTING IN RESEARCH

The Alberta Pulse Growers Commission has confirmed that 11.9% of eligible producers' 2023 check-off payment is eligible for the Scientific Research & Experimental Development (SR&ED) tax credit for their investment in APG-funded research and development projects.

Producers who have paid check-off this past year and have not asked for refunds are eligible claimants for this year's credits.

For more detailed information about the SR&ED Tax Credit, APG advises you to contact an accountant or the Canada Revenue Agency. For a history of SR&ED with Alberta Pulse Growers visit <https://albertapulse.com/growing-pulses/sred-tax-credit/>. A summary of APG research investments in 2022-23 is available at <https://albertapulse.com/research/>.

The federal SR&ED tax program is administered by the Canada Revenue Agency (CRA) and encourages businesses to invest in and perform research and development in Canada.

The SR&ED Tax Credit application forms for individual producers and Canadian controlled private corporations can be downloaded directly from the CRA website at <https://www.canada.ca/en/revenue-agency/services/scientific-research-experimental-development-tax-incentive-program.html>.

Left to right: Zone 3 Advisor Magnus von Rennenkampff, Zone 5 Director Scott Keller, APG Vice-Chair Peter Konstapel (Zone 4) and Zone 3 Director Chris Allam tried their hand at root rot sampling led by research scientists in the Agriculture and Agri-Food Canada Lethbridge lab during APG's Director-Advisor events in March.
