

2024 CROP WALKS IN PICTURES

Alberta Pulse Growers sponsored and participated in many educational events across the province over the summer. The photos on these pages show some of the research and extension topics that were shared with producers and industry representatives who attended these crops walks, field days and other agronomy events. Watch APG's website or sign up for the APG app to find out about future events!

Peas growing at the end of July near New Norway.

Zone 5 held a faba field tour at Lindholm Seed Farms where participants had the opportunity to quiz Lakeland College pulse research agronomist Robyne Davidson.

APG Chair Shane Strydhorst proudly wore his shirt declaring the APG vision of Pulses on every farm, one very plate.

Zone 1 directors and advisors checked out Viterra's new dry bean variety.
